NOTE: The following two names "**Richard G Davis**" and "**Rich Davis**" may be the same person. Information found on Ancestry, in the Florida Death Records and in Edge Funeral Home records are similar. In City records a "Rich Davis" owned site 19-07N & 19-07S at one time. It is unknown exactly where he is buried, since John Franklin Hill and Catherine Curry Hill are buried in this site with headstones. At first, I thought they may have been father and son who died on the same day together, but the parent's information is the same, so I'm not sure of this theory.

There is a headstone for “Baby Allen” and it looks as if it is in the North site. An older ledger shows “taken South” Cannot determine if “Baby Allen” is actually buried in North or South, so used the headstone as reference.

The city ledger shows Lot 3 North as empty, however there was a note in one of the ledgers “occup N 1/2”. Edward Philpott’s headstone looks to be in the South site. Could not determine if there is someone in North site or if the North is where Edward Philpott is actually buried.

Mose Giddens was widowed in the 1930 census with son's E L, Edward and Callis and his daughter Willie living with him. E L and Callis are buried in Minneola. "Gideon" may just mean Giddens misspelled. If Lot 4 North is occupied could it be the burial spot of Mose's wife (unknown) or his daughter Willie Giddens?

Previous references to this site: Doud; Roscoe - occupied

Older ledgers indicate the "Roscoe" family owned Lot 19 and mentions "Josephine (Doud) is buried in North. Josephine Doud was aunt to Stephen Roscoe and was living with him in Minneola in 1930. Newer ledger (#6) shows both North and South "occupied" and Josephine in Lot 20, not Lot 19. There is no headstone. Since the "Roscoe" family owned Lot 19 and "Doud" family owned Lot 20, it's probable that Josephine Doud is buried in Lot 20, not Lot 19. However, we do not know who is buried in Lot 19.

Samuel Mayo's headstone is located just West of Lot 17 at the end of Lot 14, more in the walkway than in where it should be and possibly in the South site. Cannot determine exact location and whether this "occupied" refers to Samuel or someone else.

The oldest ledger (#1) indicates Straker owned the North of 07-23 and Beulah Johnson owned the South. However, the location of the headstones (North to South) indicate Straker/Pulliam owned the West half and Beulah Johnson owned the East half. Beulah Johnson is most likely buried in 22-04 (no headstone). Charles Roberts is South of her in 23-5E, then Margaret Roberts in 23-6E and Dorothy Johnson in 23-8E per order of headstones. It is not known who this "occupied" burial is, but is possibly a Pulliam.
